CORPORATE & PRIVATE REVIEW SERVICE

- ★ Company Investigator
- ★ Litigation Support
- ★ Fraud Review Service

★ Company Investigator

Responsible for conducting internal investigations related to ethical violations, misuse of authority, asset theft, or breaches of company policies. The main objective is to maintain integrity, security, and compliance within the organization.

★ Litigation Support

Provides professional assistance to legal teams and attorneys in preparing documents, evidence, data analysis, and technical support during litigation processes. This service ensures that every legal proceeding runs efficiently and effectively.

★ Fraud Review Service

A service designed to identify, investigate, and prevent fraudulent activities within an organization. Its primary focus is to maintain transparency, accountability, and trust in the company's internal systems.

SECURITY BUILDING

Security Building is a security system implemented within buildings such as offices, apartments, shopping centers, hotels, and other public facilities. Its main purpose is to ensure the safety, order, and protection of people, assets, and information inside the building.

Scope of Security Building

1. Access Control

- 1a. Restricts who is allowed to enter and exit the building.
- 1b. Utilizes access cards, ID cards, fingerprints, face recognition, or manual inspections by security personnel.

2. Surveillance

- 2a. Implementation of CCTV, alarms, motion sensors, and regular security patrols.

3. Physical Security

- 3a. Involves security guards, security posts, baggage inspection, metal detectors, and other security equipment. □

4. Safety

- 4a. Fire prevention systems such as hydrants, fire extinguishers (APAR), and sprinkler systems.
- 4b. Availability of evacuation routes and emergency procedures.

5. Risk Management & Emergency Procedures

- 5a. Protocols for handling threats such as bombs, theft, sabotage, riots, or natural disasters.
